TEN CENTS PER WEEK

CHAMPIONS WILL DEBATE TONIGHT AT THE KENTUCKY

Inter-High School Oratorical
Contest For Western
Kentucky.

Crowds Accompany Speakers
From Homes.

ALL ARE IN BUT HENDERSON.

All is in readiness for the biggest oratorical contest ever held in Paducah, political speaking not excepted, when the representatives of the high schools of western Kentucky meet tonight at the Kentucky theater. Visitors began arriving early. An advance guard of 69 people came this morning at 9 o'clock, while several hundred from Madisonville, Hopkinsville, Paducah, Owensboro and Princeton are expected to arrive on the afternoon trains.

More interest has been displayed in the contest than in anything else the high school has undertaken. The keenest rivalry exists between the high schools and each representative will be backed by a solid band of rooters. The balcony has been assigned for the rooters and sections have been marked off so that the rooters of each school may be grouped for effective work in the yelling line. This morning the high school rooters held their final practice. The theater is decorated with the colors of the high schools. The blue and white of the local high school will be decorated with streamers from all of the schools.

The amount of interest that the contest has awakened in the city as well as among the surrounding towns is surprising. Yesterday about half the theater was sold out, while today the sale of tickets was lively, and it is assured that a packed house will greet the orators. The contest will begin at 8:15 o'clock.

In order that the contest may be fair the speakers will draw for positions, but the order which the speakers will appear can not be told until time for the contest.

The speakers and their subjects are: William Oglesby Soyars, of Hopkinsville, "The American Flag," Charles Rice Hourland, of Madisonville, "An Optimistic View," Miss Stella Anderson, of Paducah, "Ideals of the New and Old South," Walter Jones, of Princeton, "Abraham Lincoln Type of the True Kentuckian," Willie Reeves, of Owensboro, "On Earth, Peace," Charles Petrie, of Paducah, "America, Past and Present." It has been learned that the Henderson high school will not enter the contest. No notice was given of not entering the contest, and Prof. W. H. Sugg called up the principal over the long distance phone.

The judges have been selected from towns not in the league, so there can be no charge of prejudice. The judges will be seated in different sections of the theater, and each will be given a slip of paper. Each judge will grade the orators according to the delivery, theme and thought, and the speaker securing the highest percentage will be declared the winner. The judges are: Prof. A. C. Burton, of Mayfield; Commonwealth's Attorney John G. Lovett, of Benton, and Superintendent West, of Cadiz.

After the contest the students of the high school will entertain the visitors with a reception and dance at the Three Links building.

Those who arrived from Hopkinsville are: Misses Bessie Wallace, Edie West, Frances Cravens, Adela Williamson, Jean McKee, Marion Dorch, Ruth Fritz, Edna Cayce, Mildred Hooser, Violet Owen; Messrs. Summers Cooper, James C. West, Artin Rufford, Whitfield Rufford, W. W. Rufford, John Bell, Fred Stowe, George Johnson, Jamie Johnson, E. C. McDonald, D. A. Clark, W. O. Soyars, Charles T. Jarrett and Mrs. M. P. Dorch.

Miss Lucille Harth, who is president of the oratorical league association, will preside over the contest and will introduce the speakers.

The high school was dismissed this afternoon in order that the decorating of the theater might be completed, and an opportunity be given to give the visitors a reception on their arrival in the city.

R. L. Flannery.
News has been received here of the death of R. L. Flannery, circuit clerk of Crittenden county. His death was due to an attack of pneumonia, aggravated by the grip. Mr. Flannery was a son-in-law of Appellate Judge T. J. Nunn, and was one of the most prominent citizens of Crittenden county. He is survived by his wife and one child, Miss Virginia Flannery. He was a member of the Masons and Knights of Pythias.

House Passes Bill, Providing For Interest Bearing Warrants to be Issued to Cover Up State Deficit

Senate Passes Tobacco Pooling Law, Providing For Filing Contracts For Record--
Women Lose Fight.

Frankfort, Feb. 25. (Special.)—The senate passed the Donaldson vital statistics bill, which was defeated yesterday. It passed the tobacco pooling bill, requiring pooling organizations to record in the office of the county clerk all pooling contracts.

The house passed the bill providing for money to pay state expenses by means of interest bearing warrants instead of bonds.

Women Are Defeated.
The house refused to turn down the unfavorable report on the bill giving women the right to vote in school matters, thus killing the bill. The senate reconsidered the bond bill defeated yesterday and again defeated it.

In the Senate.
The senate passed the libel law, allowing papers to retract and escape damages.

An unusual number of new bills were introduced in the senate although none has had a chance of being enacted into law. Among them was one by Senator N. C. Cureton, dividing the state into 100 legislative districts, giving Louisville ten seats in the lower house instead of eight.

Roll call of committees for bills followed. The house killed the bill providing penalties for the practice of embezzlement, against which the committee on public health sent in a number of petitions from constituents.

The resolution of Senator J. C. Graham, providing for night sessions was voted down.

Governor Wilson sent in the name of W. G. Munn, of Louisville, as a member of the board of visitors of the blind school at Louisville. The nomination was referred to the committee on executive affairs.

Among the bills introduced were the following:
W. N. Howling—An act providing that trustees of State University shall be selected by the Alumni association and certified to the governor.

E. E. Hogg—Act providing for the payment of interest on warrants for the state charitable institutions heretofore issued, and appropriating

McWhirter's Body.
The body of Edward McWhirter, the conductor who was killed on the Iron Mountain railroad at Wolfe Lake, Ill., arrived in Paducah this morning at 7:30 o'clock. The body was accompanied from Illinois by Messrs. Cooper and Danaher, who represented the Order of Railway Trainmen, of which Mr. McWhirter was a member. At 11:25 o'clock this morning the body was taken to Marion for the funeral and burial. A delegation of the members of the Order of Railway Trainmen escorted the body to the train.

Capt. Cole Goes to Mobile.
Capt. Mark Cole will leave next Monday for Mobile, Ala., where he will join the crew of the steamer Martha Hansen. Captain Cole returned last week from a trip up the Cumberland river, and has been spending the week with friends in the city. He has been on the steamer Martha Hansen until low water in the Mobile river compelled the crew to tie up the boat.

Only One Disturbance in Philadelphia Today

Philadelphia, Feb. 25.—Only one disturbance occurred this morning when a policeman was badly hurt and a number of rioters benton up. At Sixth street and Columbia avenues a car on which Patrolman George Pastre was riding was stoned. One of the missiles rendered Pastre irresponsible. Other policemen and the state police charged the crowd, using mace. The mob broke and only one arrest was made.

The meeting called for Sunday is only to afford the union men a chance for discussion, as each union must hold its own referendum before

THE WEATHER

The predictions and temperature for the past twenty-four hours will be found at the top of the seventh column on page four.

GIVES UP.

Boston, Feb. 25.—George W. Coleman, treasurer of the National City bank, of Cambridge, who, it is said, plundered the institution of nearly \$250,000, was arrested here this morning. He was taken into custody by federal officers at the railway station, as he returned to give himself up.

SHERIFF'S FEES FOR NOTICES

The present fiscal court differs from the last as to what constitutes a reasonable fee for the sheriff in serving the notices of increases in valuation by the county board of supervisors. The magistrates have allowed Sheriff George Houser 50 cents for every notice served in the county, while a fee of 35 cents is paid for the serving of the supervisors' notices in the city.

The statute does not fix any compensation more than a "reasonable fee." During the last administration the magistrates kicked strenuously at allowing former Sheriff John W. Ogilvie 50 cents for serving the notices, but the fiscal court has experienced a change of heart. During the first year Mr. Ogilvie was allowed 35 cents for each notice, but the second year the fee was cut to 17 1/2 cents. Quite a squabble ensued over the small fee, as Mr. Ogilvie claimed that there was only a few cents profit, and in 1908 the fee was increased to 20 cents.

Sheriff George Houser was a trifle uneasy about getting a small fee, too, but the fiscal court last month allowed his bill at 50 cents in the county and 35 cents in the city for serving the notices, and it is said that no change will be made in the fee when the bill for the remainder of the notices is presented next Tuesday.

Burial of Thomas Whipple.
The body of Thomas Whipple, who died yesterday at Sharp, Ky., while visiting his son, T. E. Whipple, was sent to his home in Bardonia this morning. The burial took place this afternoon.

The End is Near
Morgantown, Ky., Feb. 25. (Special.)—Judge and Mrs. Guffy are growing worse.

SITE OF SKYSCRAPER BEING CLEARED OFF

By night the site for the new skyscraper of the City National bank will be a heap of rubbish. The work of dismantling the old buildings has progressed rapidly, and today Contractor H. M. Welkel said that he would have all of the walls down before quitting time tonight. All the wood construction has been removed and the bare walls were pushed down. It will take considerable time to clear up the old bricks, but a large force of men will be put to work cleaning the brick, and it is expected to begin the foundation by March 15.

The general strike even is possible. More cars are being run than at any other time since the walkout and the determined attitude of the police authorities to suppress the rioting has prevented further attacks upon the non-union strikebreakers. The probability of a general strike is more remote daily, and now even the street car men themselves oppose it.

FATAL AUTO ACCIDENT WHEN CONTROL IS LOST

Austin, Tex., Feb. 25.—One man was killed and four seriously injured, one probably fatally, here today in an automobile accident. John Sellstrom, a wealthy merchant, who was driving, lost control of the car while running at a high rate of speed and the car turned a complete somersault. Sellstrom was instantly killed.

THREE VERDICTS FOR DAMAGES IN CIRCUIT COURT

Small Sums Awarded Plaintiffs Against Railroad Company.

Telegraph Company Assessed Ten Dollars.

SLANDER SUIT IS CONTINUED

Three verdicts were returned in circuit court in three damage suits. J. M. Dunn was given a verdict for \$75 and his wife, Sarah Dunn, a verdict for \$25 against the Nashville, Chattanooga & St. Louis railroad as the result of injuries sustained last year near the Union station. They were returning to their home and stopped their horse when the automobile gate was lowered, while a string of freight cars passed. The gate keeper raised the gates several feet, when a switch engine started and the gates were dropped quickly. Dunn started driving across the tracks when the gates starting ascending, and was struck by the gate as it fell. The injuries they sustained were not serious.

G. W. Hanson was given a verdict of \$10 against the Western Union Telegraph company for damages as the result of negligence in delivering a telegram. Hanson was to meet his wife, who was ill, at Birmingham, Ala., and on account of the non-delivery of the telegram failed to meet her.

Killed at Woodville.
Trial of the suit of J. H. Masie, administrator, against the Illinois Central railroad for damages as the result of the death of B. Moss, was continued until March 10. The trial was entered into, but the defense was unable to secure some witnesses and the suit was continued and attachments will be issued for missing witnesses. Mr. Moss was killed near Woodville.

Slander Suit.
The trial of the suit of Miss Georgia Gregory against J. D. McElroy was continued to May. Miss Gregory is a former school teacher in the western part of the county and alleges that the defendant made remarks about her that prevented her from securing a school. Both the plaintiff and defendant are well known in the county and the suit has created much interest.

Isaac England, colored, charged with obtaining money by false pretenses, was released yesterday afternoon on bond furnished by L. M. Greif.

In the suit of John B. Steel against Charles L. Perkins the defendant filed reasons and made a motion for a new trial.

The defendant in the suit of G. W. Hanson against the Western Union Telegraph company filed reasons and made a motion for a new trial. Freeburg & Kahn were given judgment for \$123 against E. Thompson. The suit of Hardy Buggy company against B. F. Soars was submitted to the court.

An amended petition was filed in the suit of the Commonwealth against Hiram Smedley.

Saturday's Docket.
The docket for tomorrow is: William Moore against the Illinois Central railroad.

ILLINOIS MINERS GO TO SPRINGFIELD IN 1911

Peoria, Ill., Feb. 25.—Springfield was awarded the 1911 convention of the United Mine Workers of Illinois in state convention today. The vote was Springfield, 197; Peoria, 23; East St. Louis, 18. Operators were ready to meet the miners today in a joint state conference.

SAUNDERS FOWLER IS TIPPED FOR THE PLACE

In river circles Saunders A. Fowler is tipped as president of the Paducah and Evansville Packet company, as successor of Captain H. C. Gilbert, who has resigned, owing to ill health. A meeting of the directors will be held Monday in Evansville, and the talk is strong that Captain Fowler will be elected to the presidency of the company. Mr. G. C. Crumbaugh, of Paducah, is secretary and treasurer of the company. Mr. Fowler is a director of the company, and it is said that he has served the company so well as the Paducah agent, that he will be honored. The company operates the steamers Joe Fowler and John S. Hopkins between Paducah and Evansville, and is one of the oldest packet companies on the lower Ohio river.

Captain Godfrey Fowler is Dead From Wounds Received, Fighting at Head of Chamorro's Artillery

American Officer Well Known in Paducah, is Loss to Provisional Government--Con-
flicting Reports of Fight.

Austin, Tex., Feb. 25.—Capt. Godfrey H. Fowler, of Palestine, Tex., formerly of the United States army, who commanded General Chamorro's artillery in a recent battle against the government forces near Granada, Nicaragua, is dead from wounds received during the fighting, according to official advice received by relatives here today. Captain Fowler was the grandson of the late United States Senator John H. Reagan. When Fowler left here his relatives supposed he was going to New Orleans for treatment for nervous prostration, but the next heard from him was from Nicaragua. Captain Fowler served through the Spanish-American war and was a member of the Gilmore relief expedition in the Philippines. He was 35 years old.

Capt. Godfrey Fowler is a cousin of Mr. Saunders Fowler and of the family of the late Capt. Joseph H. Fowler. He visited his relatives here several summers ago and by his attractive personality made many friends.

Bluefields, (wireless to Colon), Feb. 25.—Reports of conditions in western Nicaragua are again conflicting, messages being received here today from Rama that a group of straggling Estrada soldiers had reached La Libertad with a story that fighting about Acayash, St. Vincent and other western points had not been entirely in favor of the provisional army. The men declared they had heard that Chamorro's brigade had been cut to pieces in fighting between Granada and Managua. The stragglers had been cut off from their command and were endeavoring to work their way back to the base of supplies. The story reached here just after a night of celebration over what was believed to be a complete Estrada victory, and today there is a feeling of apprehension here among provisional officials, who are anxious to receive an authentic report.

Notable Americans Now in Chile.
Andes, Chile, Feb. 25.—William J. Bryan and Mrs. Bryan and their daughter, arrived today from Santiago and crossed the mountains on their way to Buenos Ayres. Dr. Frederick A. Cook and wife arrived from Santiago. They will remain until Sunday, when they may proceed to Buenos Ayres.

NEW JERSEY BBBB PROBE IS WORKING

SUBPOENAS FOR PRINCIPAL OFFICERS OF NATIONAL PACKING COMPANY TRUST.

Jersey City, N. J., Feb. 25.—Subpoenas for four chief officers of the Corporation Trust company, of New Jersey, the holding company of the National Packing company, were issued today as the latest move of the Hudson county grand jury against the beef trust. Howard Wood, president; W. H. Chesbrough, vice-president; Kenneth McLaren, treasurer, and J. B. Boston, secretary of the Corporation Trust, are the men summoned.

An attempt has been made to bribe Prosecutor Garvan, of Hudson county, New Jersey, to drop the prosecution of the meat packers, according to a statement made by an official of Mr. Garvan's office.

The allegation is that two men from Chicago had approached an acquaintance of Mr. Garvan and indirectly suggested that the prosecutor would retire a rich man if he would drop the prosecution of the meat packers. These men, it is further alleged, asked whether the prosecution of the packers was a question of money, and added that Mr. Garvan would come into possession of a large sum of money if he would drop the present proceedings.

Farmers' Union Meeting.

R. L. Barnett, state secretary of the Farmers' union, returned last night from Gum Springs in Livingston county, where a successful county union meeting was held yesterday. Mr. Barnett will leave tomorrow for Kuttawa, where a meeting of the Lyon county union will be held, while early next week he will leave for Washington in the interest of several bills pending in congress and advocated by the Farmers' union.

BIG SHOPS.

Elkhart, Ind., Feb. 25.—Announcement is made today by Master Mechanic Foster, of the Lake Shore and Michigan Southern railroad, that the road was to begin shortly the construction of \$2,000,000 locomotive and car shops here. The shops, according to the announcement, will be the largest in the west, covering 65 acres, and will employ over 3,000 men.

FALL FAIR PLANS ARE IN BALANCE

ALL DEPENDS ON WHETHER ASSOCIATION HAS SUPPORT OF MERCHANTS.

Whether Paducah has a fair next autumn will depend upon what aid and encouragement the business men and merchants of the city extend to the promoters. This was decided this morning, when a meeting of the directors of the Paducah Fair association was held. After the first fair the association practically broke even and stands ready to repeat the fair this year if the promoters are assured that the merchants will lend them assistance. Last year large crowds were drawn to the city by the races and it is hoped to hold the fair under more auspicious circumstances this fall.

Notable Americans Now in Chile.
Andes, Chile, Feb. 25.—William J. Bryan and Mrs. Bryan and their daughter, arrived today from Santiago and crossed the mountains on their way to Buenos Ayres. Dr. Frederick A. Cook and wife arrived from Santiago. They will remain until Sunday, when they may proceed to Buenos Ayres.

Old Fellows News.

Mrs. Emma Ochs, of Newport, state president of the Rebekahs, left this morning for New York after spending several days in the city. She is making an inspection trip over the state, visiting the lodges. From Barlow she will visit Massac, in the county, where a new lodge of the Daughters of Rebekah will be instituted. Last night the Mangum lodge of Odd Fellows initiated ten new members. The new members were in the large class that was scheduled for membership last week, but owing to the blizzard all of the work was not completed.

Deputy Sheriff Killed.

Memphis, Tenn., Feb. 25.—A race war is imminent here today, following a shooting of Deputy Sheriff W. H. Lacy by Aaron Norfleet, a negro, in the farm house of George C. Bennett, a famous turfman and owner of the New Orleans baseball team. Although Norfleet was killed immediately afterward by Deputy Hamilton Ray, feeling runs high and negroes are afraid to go near the house where Norfleet's body has laid near 15 hours. Lacy and Ray went to the farmhouse early today to arrest the negro. The latter seized a shotgun and blew off the top of Lacy's head as he grabbed at the barrel. Ray then shot the negro with a revolver as he started to run from the room.

PINCHOT DRAWS CROWD TO ROOM

REPORT THAT HE WAS GOING TO TESTIFY REACHES EARS OF PUBLIC.

Washington, Feb. 25.—Drawn by the announcement that Pinchot probably would take the stand, a crowd packed the room when the hearing of the congressional investigation committee of the Ballinger controversy resumed its session today. Half the audience were women and there was a flutter of excitement when Pinchot, accompanied by his brother, Anos, appeared in the room. All the principals in the controversy, except Ballinger and Pierce, were present when the committee convened. Horace E. Lard Jones, former special agent in the land office, was called by Brandeis as first witness.

ADMINISTRATION'S BILL IS REPORTED FAVORABLY TODAY

Interstate Commerce Law Amendments as Proposed by Senator Elkins.

Postal Savings Bank Measure Considered.

IN THE NATIONAL LEGISLATURE

Washington, Feb. 25.—The senate committee on interstate commerce today decided to recommend the passing of the Taft-Elkins bill, amending the interstate commerce law.

Postal Bank.

Washington, Feb. 25.—Decided progress was made in the senate towards the disposition of the postal savings bank bill. In addition to the striking speech by Senator Bailey an amendment offered by Senator Burton, as a compromise of the various differences on the question of the disposal of funds arising from postal deposits, Senator Carter succeeded in getting next Thursday, March 3, fixed for a vote on the bill.

There was no objection to naming the day and the senators appeared pleased that the time had been fixed for the final disposition of the measure, which has dragged in its progress through the senate. Carter preferred his request immediately after the close of Bailey's speech. The time was well selected, as many senators have been waiting to hear from the Texas senator before agreeing to fixing the time for the disposal of the bill.

After Bailey had concluded many expressed the opinion that he had thrown much light on the constitutional questions involved in the subject. He had a splendid audience, both on the floor of the senate and in the galleries, and the speech was received with general favor.

Owen gave notice that he would speak on the proposed amendment, substituting the government guarantee of bank deposits for the suggested postal banks.

In the House.

Washington, Feb. 25.—Consideration of the postoffice appropriation bill, carrying \$239,000,000, was begun in the house, thus giving to many members opportunities to make political speeches. Representative Gardner, of Massachusetts, addressed the house on the subject of the high prices of the necessities of life, contending that the tariff was not an important factor in determining such prices. He exhibited charts to show that the price movements were worldwide.

Taft Program Grows.

Washington, Feb. 25.—Following his return from a two days' trip to Newark, N. J., President Taft had several conferences with members of the two houses of congress regarding the legislative program. The bills which the president declared that he looked for congress to pass in redemption of party pledges are these:

Establishing postal savings banks, amending and strengthening the interstate commerce law; the conservation measures giving the president the right to withdraw public lands from entry and to continue the withdrawal until revoked by himself or by act of congress, and providing for a reclassification of the lands (these two bills may be consolidated); the anti-injunction bill and statehood for New Mexico and Arizona.

In addition to these, the president has raised many other matters of important legislation, among them a bill for new government in Alaska, the bill for federal incorporation and the bill creating a public health bureau.

Mr. Taft let it be known, that while he urges only the five measures set forth as party pledges, he has by no means abandoned the other measures he had recommended.

Outline Big Naval Program.

Washington, Feb. 25.—From an authentic source it was learned that the following is the probable program for the naval increase for the coming year as it will be reported by the house committee on naval affairs:

Two mammoth battleships of 28,000 tons each, costing \$11,000,000 each.

One repair vessel.

Two large naval collars.

Five submarines.

Three destroyers.

This list represents an increase over the recommendations of Secretary Meyer, but it is understood that when the secretary appears before the committee next Saturday he will urge these additional recommendations. A majority of the committee is said to favor the above list.

The committee reached a tentative conclusion to authorize the building of 25,000-ton battleships instead of 26,000, as heretofore agreed. Some members favored 30,000-ton ships.

That Postal Deficit

The Joint Postal Commission in 1907 reported as follows:

"It appears too obvious to require argument that the most efficient service can never be expected as long as the direction of the business is, as at present, intrusted to a Postmaster-General and certain assistants selected without special reference to experience and qualifications and subject to frequent change. Before the Postmaster-General and his assistants can become reasonably familiar with the operations of the service they are replaced by others, who, in turn, are called upon to resign before they can, in the nature of things, become qualified by knowledge and experience to perform their allotted tasks. Under such a system a large railroad, commercial or industrial business would inevitably go into bankruptcy, and the Post-Office Department has inherited that fate only because the United States Treasury has been available to meet deficiencies."

The public accountants' report said:

"The work of the Department and its development is hindered all along the line by slavish adherence to old methods and to precedents created in previous years, and many reforms which might otherwise be instituted are hindered—if not entirely prevented—by appeals to the decisions of the Comptroller, made, perhaps, many years ago under entirely different conditions. Then, again, the conservatism of Government officials is a generally admitted fact. There is no inducement to employees to suggest improvements in the service for the reason that if these improvements result in greater efficiency or economy of administration they will receive little credit; and, on the other hand, if new methods are not successful they will be charged with the whole blame."

In view of these official statements by those whom Congress authorized to investigate the Post-Office, we submit that the Postmaster-General's attempt to wipe out the deficit in his Department by raising the postage on your magazines, instead of by devoting his energies to securing legislation that will place the service on a sound, efficient and economical basis, is unwise and unbusinesslike. The nature of his recommendations, and the attempt to exempt newspapers from any increase, are final grounds for a divorce of this great business department from politics.

NO TIDINGS

FROM PRISONERS WHO BROKE JAIL LAST WEEK.

One Tracked By Blood Hound and Another Stolen Horse—Broke Cadiz Jail.

Cadiz, Ky., Feb. 25.—No tidings have yet been received as to the whereabouts of any of the four prisoners who broke out of the county jail on Wednesday of last week, and it now looks like each had made good his escape.

Early in the search last Wednesday afternoon the blood hound of Tom McBride located the track of one of the men down the north bank of Little river, and the trail was followed by Jailer Marlow and Mr. McBride until dark. The dog, which was turned loose, had left the men, and they were unable to find trace of her after following her tracks down the river for two miles. The dog did not return to town that night nor the next day, and it was thought that perhaps she had been killed. Saturday morning Tom Wharton, an old negro who lives two miles northwest of town, brought the dog to town, saying that on Wednesday night about 9 o'clock a strange negro answering the description of Winberly had come to his home and asked to warm. The negro remained there until about 11 o'clock, according to the story, and the next morning the

dog was found under his house. A horse was stolen from W. P. Bruce, who lives on the Grifter farm, near town, the night the prisoners escaped, and the next morning it was found at Cerulean, muddy and tired, and showed signs of having been hard ridden. A message from Princeton Friday stated that a man had been arrested there answering the description of Rogers, but investigation proved this to be some other than Rogers. Description of the men have been sent all over the country, and it may be that some of them will yet be caught, though no trace of them has yet been found.—Cadiz Record.

SENATOR GORDON SAYS FAREWELL

MISSISSIPPI MAN MADE DRAMATIC SPEECH.

Says He Was Born a Multi-Millionaire but Succeeded in Getting Rid of It.

HE IS SORRY FOR RICH MEN.

Washington, Feb. 25.—Senator James Gordon, of Mississippi, said good bye to the senators with whom he had served for sixty days. When Gordon concluded Senator Dewey addressed the chair, saying that he had never heard of or read any speech of the kind.

"I was born a multi-millionaire," said Colonel Gordon, "but I never was happy until I got rid of my surplus money. I spent much of it on my slaves and the rest of my funds I spent like a gentleman and got rid of my entire encumbrance."

"I have listened with interest to speeches here and the more I heard of them the sorer I am for the millionaires. Why, if there is a fellow in the United States that I am sorry for it's Rockefeller, because he has more money than any one else. That is his misfortune. He can't go on the street with one of his grandchildren unless he is afraid that some one might kill him. Why, I know that he loves one of those children much better than he loves all the money he has got."

"I think Rockefeller is a good man. I see his employees speak well of him, and I am told that he never had a strike. I am told also that he has given much money to churches and education. Now, I don't suppose that everybody will like that, but those who don't like it can put it in their pipe and smoke it. I would like for Rockefeller to come down to Mississippi and run his pipe lines through my land. He could have the right of way for all the lines he wanted, for I know that in my time coal oil has been reduced from forty cents to ten cents a gallon."

Referring to the fact that he had been a Confederate soldier, Gordon said: "I fought and bled, but did not die. However, I skeddaddled frequently."

He then told of his exploits in the war and how he had captured General Ceburn, of Indiana and General Shafter. Shafter, he said, had fired at him five different times during a Confederate charge without hitting him. He admitted that on more than one occasion he had been "skedaddled." He wanted the Mason and Dixon line obliterated from the United States because he did not want any more strife.

"A few blab-mouthed people down our way talk differently," he said, "but they are so insignificant that they are not worth cursing."

News of Theatres

"The Traveling Salesman," by James Forbes, the author of "The Chorus Lady," which ran an entire season at the Gaiety theater in New York, four months at the Park theater in Boston and six months at the Illinois theater in Chicago, comes to The Kentucky at an early date. "The Traveling Salesman" has scored an emphatic success and has earned a wide reputation and name.

The "Buster Brown" company is to appear at The Kentucky Wednesday evening, March 2.

PURSE SNATCHER

ATTACKS MRS. LEE STEWART, OF BROOKPORT, ILL.

Ten Dollars in Pocketbook, Which Unknown Man Secured From Her.

While returning to her home, 215 North Third street, last night, Mrs. Lee Stewart, formerly of Brookport, Ill., was accosted by an unknown man just in front of the Commercial hotel, Third and Jefferson streets. He snatched her large black pocketbook from her hand and fled in the darkness.

Mrs. Stewart was frightened by the boldness of the purse snatcher, and by the time she could recover her faculties he was nowhere in sight. The police were notified and patrolmen in the business district given a description of him. The purse contained a small pocket inside and a \$10 bill. Also in the purse were a pressing club hat of Brookport and a bank book. She was unable to tell whether the man was white or colored, but described him as being tall and rightly dressed. No clue has been found.

A New Rochelle man feeling for a door in the dark broke his nose against the edge of it. The open door is all right, but dangerous if only half open.—New York Herald.

CONNORS AND MURPHY AGREE

SAVES SCALP BUT LOSES MOST OF HIS HAIR.

Repudiates Charges Concerning Tammany Chief and Alleged Auctioning of Judgeships.

HE WILL RESIGN IN APRIL.

Albany, N. Y., Feb. 25.—William J. Connors made good his prediction that he would remain chairman of the Democratic state commission after its meeting. In leaving his political scalp he lost most of his hair.

Charles F. Murphy, the Tammany chieftain, whose mastery of the situation was realized by no one better than by Connors himself, granted the Buffalo leader a brief political reprieve in the interest of party harmony, after Connors had agreed to resign in April, and to repudiate his recent harsh statements concerning Murphy and the alleged auctioning of judgeships in New York, which he declared were the result of his "infirmities of temper," and were unjustified in fact.

Connors was re-elected for two years on April 17, 1908. He announced at the meeting that under no conceivable circumstances would he be a candidate for re-election. The state committee will meet in April to elect a new chairman. The meeting lasted less than 15 minutes. After a compromise which was arranged at a personal conference between Chairman Connors and Leader Murphy, all fear of a clash at the meeting vanished.

Four resolutions were adopted unanimously and the meeting adjourned. The first resolution favored the federal income tax. The second favored a direct primary. The third scored the "Republican misrule" and "iniquities of the tariff law," declaring the Republicans won the last election upon a platform pledging revision of the tariff downward, but that the recent revision in no way removed from the shoulders of the people the burden of indirect taxation. The fourth charged that the high cost of the necessities of life is directly attributable to the Republican misrule.

(Continued from Page One.)

\$75,000 for new buildings at the feeble minded institute and \$65,000 for water supply at central asylum at Lakeland.

J. F. Pritchard—Act extending county unit local option law. Identical with Vice and Watkins bills heretofore killed.

Mark Ryan—Act providing pay for deputy county clerk in Jefferson county.

H. H. Smith—Act dividing state into thirty-eight senatorial districts. Gives Jefferson county and Louisville four senators instead of three as now.

A number of bills were given their second reading and referred to committees.

After an unfavorable report by the committee on public health, the house refused first reading to the bill providing for a board of examiners for optometrists, 44 to 20.

Given up by Doctor

"I had dropsy, and was told by my family physician that there was no chance for me. My family also gave me up. My limbs and body were swollen one-third larger than natural, water collected around my heart and I had to be propped up in bed to keep from smothering. I took Dr. Miles' Heart Remedy until I was entirely cured. This was in 1902, and I am now able to do any kind of work on my farm. My cure was certainly marvelous."

Dr. Miles' Heart Remedy has been wonderfully successful in relieving heart trouble. Its tonic effect upon the heart nerves and muscles is a great factor in assisting nature to overcome heart weakness.

Dr. Miles' Heart Remedy is sold by all druggists. If the first bottle does not benefit, your druggist will return your money.

The Stomach and How To Cure Its Ills, Free

More thought is being given to the stomach today than to any other organ. Dieting and a hundred other things are suggested, but the fact remains that we have to eat and that in the main we are eating the same food today that has been eaten for hundreds of years. The point, then, is to find a way of remedying an evil when we find it.

There comes a time in the lives of all of us when a laxative is necessary, only with some this requirement occurs more frequently than with others. But whether the occasion is frequent or rare it is important that you take a simple, natural remedy. The farther you get away from the man-made tablet or pill and the salty purgative water the better. You want something that combines the virtues of a laxative and tonic, something that is sure in its effect and yet pleasant to the taste, a remedy containing earth-grown vegetables and plants. Such is Dr. Caldwell's Syrup Pepsin, now for nearly a quarter of a century a recognized household friend in thousands of homes. The world affords no better cure for constipation and liver trouble, for indigestion and sour stomach, for sick

headache and flatulency than this remedy. But in addition to its laxative value it contains ingredients that have a tonic action in strengthening and invigorating the muscles of the stomach and bowels. That is what the majority need—a tonic laxative. But as there may be no doubt about what it will do in your case, Dr. Caldwell will gladly send you a sample bottle free of charge upon receipt of your name and address. Then, if it pleases you, you can buy it of your druggist at fifty cents or one dollar a bottle, just as thousands of others are doing. J. H. Funderburg, Macomb, Tex., not only uses it with good success himself, but gives it to his children, for owing to its mildness and agreeable taste there is no better laxative for children. E. P. Menal, Vancouver, B. C., has also found it a good family remedy.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address up a postal card or otherwise. For either request the doctor's address to Dr. W. H. Caldwell, 1139 Caldwell Building, Monticello, Ill.

Hill-Evans cases, made reports allowing expenses to the parties. Dr. J. H. Evans, who was unsent from the Breathitt-Lee-Magoffin district was allowed \$300 and H. C. Hill \$250. Allowances of \$250 each were made to G. C. Scott and E. E. Trivette, who contested the seat from Pike county. Trivette, Republican, the contestee, was awarded the seat.

Among the bills introduced were the following:

By Zimmerman—Requiring the commissioner of agriculture or other authority to call all meetings of farmers institutes for the purpose of electing delegates to the state institute for county seats. A fine is provided for a violation of this act.

Mr. J. W. Perry—Requiring the state board of health to issue a certificate to practice medicine to a reputable physician of good moral character who has attended two terms at a reputable, legally-chartered, medical college, and who has practiced medicine for twenty-five years.

Wants State Printing Office.

Mr. H. C. Hill—Establishing a public printing office at the state capital, to do the state printing and binding, and for the printing and binding of a uniform set of school books to be used in the public schools.

Mr. Southall—Providing for the making of an allowance by a county judge committing a child or children coming within the jurisdiction of the court to any institution not supported in part or in whole by the state, county or city, and requiring these payments to be made by the parent.

Kilair—Providing for the payment of those enlisted officers and men of the state militia who were regularly called into service during the late winter and spring of 1900 and who have not been paid for such service.

This has reference to men in the service during the Taylor-theft contest.

Counts—Designating the tobacco leaf as the state flower.

Price—Giving citizens of Second-class cities protection from oppression at the hands of public service corporations of which they are patrons.

Delay For Unit Bill.

On motion of Mr. Steers the orders of the day were postponed until winding committees might report. This again retarded the progress of the county unit bill.

House bill 116, the woman's suffrage bill, was reported by Chairman Harry Myers with the expression of opinion that it ought not to pass.

Representative McVean introduced a bill permitting the judges of the circuit court of Kenton county, at independence, to sit during the trial of different cases without the drawings by lot, the practice now in vogue.

The committee on rules reported favorably the senate resolution providing for the payment of \$8,200 for extra expenses in employing clerks and stenographers.

A STARTLING STATEMENT.

New York Medical Authorities Claim Dyspepsia to Be a Pre-Disposing Cause of Consumption.

The post mortem statistics of the big New York hospitals show that some cases of consumption are due, at least indirectly, to unchecked dyspepsia, especially when the victim was predisposed to tuberculosis.

Dyspepsia wears out the body and brain. The weakened, irritable stomach being unable to digest food, the body does not receive the required nourishment, and the victim becomes thin, weak and haggard. As a result, the body becomes a fertile field in which the germs of disease may lodge and flourish.

Therefore, the person who permits dyspepsia to progress unhindered is guilty of contributing toward the development of one of the most insidious and fatal diseases known to mankind.

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing.

This remedy has been named Rexall Dyspepsia Tablets. Certainly no other could be more fair, and our offer should be proof positive that Rexall Dyspepsia Tablets are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets. A 25-cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Paducah only at our store.—The Rexall Store.—W. H. McPherson, 425 Broadway.

VREBLAND MEN
WIN THE FIGHT

OUT FOLLOWERS OF NEWMAN
IN FAIR BOARD

At Farmers' Institute—Commiss-
sioner Rankin Blocks Plan to
Re-Elect Woodford Man.

HOT SCRAP IN THE MEETING.

Frankfort, Ky., Feb. 25.—After a lively fight in the Farmers' Institute between the two factions headed by Hubert Vreeland and Secretary J. W. Newman, of the State Fair, and Vreeland faction triumphed and succeeded in putting in its officers and members of the state board of agriculture.

The new officers for the institute and the new members of the board of agriculture, forestry and immigration were elected.

T. J. Higstaff, was elected president, succeeding H. M. Froman, who has been president for five years.

New Board Members.

Second District—E. G. Dent, suc-

ceeding C. M. Barnett.

Fourth District—L. L. Dorsey, suc-

ceeding himself.

Fifth District—H. M. Froman, suc-

ceeding Joshua Hreckinridge.

The following officers were elected besides Mr. Higstaff: C. M. Barnett, Hartford, first vice president; W. A. Clements, Springfield, second vice president; Perry M. Shy, Frankfort, secretary; J. S. Cassidy, Inc., treasurer.

Resolutions were adopted endorsing the good roads movement, appropriations for the State Fair and complimenting the work of the Experiment Station and the Commission of Agriculture's office.

J. W. Newman, secretary of the state fair, was re-elected at a meeting of the state board of forestry, immigration and agriculture.

As a result of politics, which split the State Farmers' Institute wide open, whatever good might have been accomplished out of the institute will come to nothing.

The selection of Mr. Newman was a great disappointment to the Vreeland faction, who had hoped to elect Hubert Vreeland secretary.

Behind Morality.

Writing of technical a traveler says: "The people are as a class extremely well educated and many a young fellow you may see haymaking has been through the Latin school at Ithaca, and is studying law, medicine or divinity in the winter. He finds the means for his winter studies by working on the 'and during summer. Technical is essentially a democratic country, and everyone has an equal chance of coming to the front. It is singularly unspoiled by the view of an older civilization, and its people are marked for their simplicity of life and manners. I should unhesitatingly describe technical as morally the purest country in the world."—Exchange.

Worse and Worse in Spite of Many
Doctors and Three Years of Hos-

Made Her Almost Crazy with Pain.

CURED BY TWO SETS
OF CUTICURA REMEDIES

"I began to have an itching over my whole body about seven years ago and this settled in my limb, from the knee to the toes. I went to see a great many physicians, a number of whom cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. When I showed my foot to my friends they would get really frightened. I did not know what to do. I was so sick and had become so nervous that I positively lost all hope.

"I had seen the advertisement of the Cuticura Remedies a great many times but could not make up my mind to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies and I tell you that I was never so pleased as when I noticed that, after having used two sets of Cuticura Soap, Cuticura Ointment and Cuticura Pills, the entire inflammation had gone. I was completely cured. I should be only too glad if people with a similar disease would come to me and find out the truth. I would only recommend them to use Cuticura. Mrs. Bertha Sachs, 1621 Second Ave., New York, N. Y., Aug. 20, 1902."

"Mrs. Bertha Sachs is my sister-in-law and I know well how she suffered and was cured by the Cuticura Remedies after many other treatments failed. Morris Sachs, 321 E. 80th St., New York, N. Y., Secretary of Deutsch-Amerikanischer Verein, Kommu Hebrew Benevolent Society, etc."

A single set of Cuticura Remedies, costing but one dollar, consisting of Soap to cleanse, Ointment to heal and Pills to purify, has frequently cured chronic cases of torturing, disfiguring humors of infants, children and adults when the best methods known to the profession had failed. REPORT OF SENATE COMMITTEE
ROASTING GOVERNOR.

Annals of Taylor's Investigation
Finds Lodging in Louis-
ville.

Frankfort, Ky., Feb. 25.—Repub-
licans here are elated at the charac-
ter of the report made by Senator
E. M. Taylor, of the sub-committee
of the legislature named to investi-
gate the adjutant general's depart-
ment, but which seems to have shifted
over to the governor's office in-
stead, and say that it will make cap-
ital campaign material for them.

When the report is printed and re-
turned to the senate, it will be dis-
cussed by the Republican and some
of the Democratic members, in a
way which promises to add spice to
the proceedings of the day. One
Democrat, from a certain county in
which the troops were sent during
the "night rider" troubles, called at
the governor's office, after hearing
the report made, and said that he
wanted to indorse the action of the
executive. "Not long ago," said this
gentleman, "I was one of those who
condemned the governor in the sev-
erest terms. I am one who, today,
wants to say that I was mistaken,
and that the people of my county
are today with the chief executive
for his prompt action in connection
with the putting down of the 'night
riders.'"

The making of the report, or the
preparation of it, seems to have fallen
principally into the hands of
the attorney for the committee,
former Senator Charles Carroll. Sen-
ator Taylor was seen several times
and asked to furnish a copy of the
report to the representatives of the
newspapers, to be held for release,
prior to sending it to the senate. He
promised to do so. When seen Tues-
day evening and asked for a copy
of the report, as per promise, Sen-
ator Taylor said that the committee
had met and decided not to give it
out to the press at all, but that it
would be offered in open senate
Thursday, and that the papers would
have to catch it as best they could.
When seen yesterday and asked how
it came that but one report was
given out, and that to the Evening
Times, Senator Taylor said that his
premier Attorney Carroll had done
this, as he had the making of the re-
port and that but two copies were
prepared.

Attorney Carroll Ran Things.

Senator Taylor was assured that
the report was not considered of
such importance, from a newspaper
standpoint, but that it was only de-
sired to find out who was "running
things" and giving out the report.
When the report finally is return-
ed, printed and taken up for consid-
eration there promises to be some
attention paid to the cost, to the
state of Kentucky of gathering this
information, which Senator Burnam
pointed out, is still withheld, and
only the deductions submitted to the
senate. The committee most prob-
ably will be asked to furnish the tes-
timony on which the deductions are
based. It is understood that one
item of expense in connection with
the inquiry will be something like
\$113 for a jaunt to Louisville and a
stay at the Seelbach. Mr. Charles
Carroll was retained as attorney by
the committee, but, Senator Taylor
says, an amount of money was fixed
for his services, no specific contract
was made, and he will be permitted
to present his bill for his services.
What this amount will be, is not
known.

There is a shrewd suspicion that
the animus for the inquiry came
from down Louisville way.

The House Fly.

Dr. Otto Driesen delivered a lec-
ture at the Urania in Berlin a short
time ago in which he employed mor-
tion pictures to illustrate the causes
and effects of the sleeping sickness.
He also showed a series of views
which added strength to what he had
said of the common house fly, and
in conclusion spoke of the moving
picture as "a potent aid to the cause
of education." Showing the house-
fly and its insinuating, poisoned char-
acteristics will certainly do more
good than a display of a multitude of
manufactured scenes put together to
illustrate a sentimental descriptive
poem," he added.—New York Tribune.

bottom dollar seldom has to dig down

DEADLOCK ON
DEEP WATERWAYS

LEGISLATURE ADJOURNS UNTIL
TUESDAY MORNING.

Lorimer Men Active—Were Able to
Stop Progress of the State Ad-
ministration Forces.

CONFEREES ARE APPOINTED

Springfield, Ill., Feb. 25.—Dead-
locked on the deep waterway ques-
tion, the legislature adjourned until
next Tuesday morning.

Followers of United States Senator
Lorimer were able to stop the pro-
gress of the state administration
forces. Representative Smekal, of
Chicago, who is chairman of the
house committee of waterways, did
not call a meeting of the committee
to act on the Schmitt or state ad-
ministration bill, and thus stopped
progress until next week.

The Denoon men claim that they
will have a sufficient number of
members of the committee to order
the bill favorably reported if the
committee gives the measure a hear-
ing. Some believe the game of the
anti-Denoon men is to break a
quorum, if possible, and thus pre-
vent a test vote in the house.

The senate's request for a confer-
ence committee on the commission
form of government bill was grant-
ed, and Speaker Shurtliff appointed
the following conferees on behalf of
the house: Representatives Gorman,
of Peoria, Jutts, of Peoria, Mc-
Laughlin and Solitt, of Chicago, and
Chesterfield, of Canton.

The house members are not will-
ing to recede from their amend-
ments or adopt the senate amend-
ments. There was a quorum of the
house present today and they block-
ed most of the important bills that
were up. They practically killed
Senator Jones' petition for nomina-
tions in smaller cities and towns by
sending it to the committee on elec-
tions instead of advancing it to third
reading, without reference to the
committee.

The senate bill providing for con-
necting the sanitary district and the
Illinois and Michigan canal by the
removal of the bridge at Joliet was
referred to the committee on canals
and rivers, though Mr. Hull wanted
it advanced to second reading with-
out reference.

TO THE PUBLIC.

I desire to say that when I took
the agency for ZEMO, it was after a
thorough investigation as to the
merit and curative properties of this
remedy for eczema, pimples and dan-
druff. I frankly admit, ZEMO has
far exceeded my expectations as a
cure for skin diseases. I am pleased
to state that I shall continue the
agency as ZEMO gives the best sat-
isfaction of any similar remedy I have
ever sold. My customers like ZEMO
because it is a clean, vegetable liquid
for external use. ZEMO cures by
drawing to the surface of the skin
and destroying the germ life that
causes the disease, leaving the skin
clean and healthy. It does not soil
the clothing or linens and can be
used freely on infants.

We will give a booklet on skin dis-
eases and explain to any person how
they can be cured at home of any
form of skin or scalp disease by this
clean, scientific preparation.

Daily Thought.
Never be satisfied with a work half done. Poor work soon becomes habit, and weakens character.

We proudly call attention to the fact that the magazines in their fight against an increase in postal rates are carrying on an advertising campaign in The Evening Sun. The magazines know that the way to reach the people is through the columns of the daily newspaper.

The state farmers' institute was ruined as far as accomplishing any good was concerned, by the fight over the election of a state fair board between friends of Secretary J. W. Newman, and of Hubert Vreeland, brother of Graham Vreeland, head of the Frankfort lobby. Hubert wanted Newman's place, and it was thought his friends had defeated Newman; but Newman was re-elected. Something ought to be done to divorce the farmers' institute from this sort of politics.

THE COUNTY SCHOOL BOARD AND THE TALENT.

Although the county school board has decided to abolish McCracken county's only consolidated school and not to establish any more, it is something to get the county superintendent on record, endorsing the value of consolidation. However, when a course is recognized as an advanced one, it is not statesmanlike in the board or superintendent to give it up in the face of the first obstacle. That looks too much like failure of administration for lack of administrative ability.

If consolidated schools are best, and it is unfair to make the whole county pay for transportation, the superintendent and board should set themselves to devising means of getting around this difficulty. The superintendent admits that the obstacle has not proven insurmountable in other states. Our school system, like many others of our public functions, are languishing through lack of initiative and originality in our administrators. It is not sufficient for those in charge of our public schools and public roads and public institutions to point to the negative virtue of honest failure to take advantage of their opportunity to steal the public funds. We call their attention to the parable of the slothful servant, who wrapped his Lord's talent in a napkin and laid it away until his Lord's return. But his Lord had expected him to use the talent and increase it. So do we expect our public servants to increase the efficiency of their departments as well as prevent waste. We have gotten so far as to admit that the consolidated schools are best. Now, let us consolidate them, gentlemen.

NOT A THOROUGHREID.

It has been inferred that the legislative military report is to be used in campaign material by the Democrats of Kentucky; but there are many earmarks to betray its parentage. It is by Louisville Ring out of Night Rider, and not a thoroughbred Democrat, by any means, though no Republican legislators were allowed to be present at its birth. Great stress was laid on the tem-

peramental incapacity of that fine old Confederate veteran, Adjutant General P. P. Johnston, and the attack on the governor led precipitately up to the affairs of the First regiment at Louisville, where there was trouble among officers. A Louisville lawyer of the name of Carroll prepared the report, which was brim full of vituperation, and lacked all the characteristics of a judicial finding; and the report was denied other papers and furnished to the Louisville Times, early enough that it was able to print it double column on the front page, with an elaborateness of display that indicated to the trained eye foreknowledge of the context, and the best way to show it up. The added touch was given the partisan character of the report, by the declaration of Republican members of the committee, that they had nothing to do with the investigation, and did not know of a single bit of evidence produced.

The Louisville Times, which was one of the papers that urged the governor to take the drastic steps he finally adopted, and that praised his efforts at the time, has difficulty in maintaining its balance. This is the way it attempts to:

With Gov. Wilson's professed desire to enforce the law during the night rider rebellion, The Times was in open and hearty sympathy. Of his methods, beginning with the hectoring of the tobacco growers of the state like a lot of naughty school boys, when they petitioned him in convention to aid them in an open fight for their property rights against an all-powerful monopoly, continuing with his refusal to extend to the civil authority the recognition of the right guaranteed to them under the Constitution and the law, and culminating, in the total collapse of his scheme of armed repression, with not one law violator brought to punishment and almost \$200,000 of the state's money squandered, there can be but one opinion.

The Times did not, during the night rider trouble, caution the governor to aid the farmers in their fight on the trust, nor does it now deign to explain how the governor could aid the farmers in fighting the tobacco trust.

No one could proceed against the trust otherwise than by law, and if there was no state law, the legislature, which was in session, and which professed friendship for the night riders, was negligent of its duty toward its friends. If there were laws, and the county and commonwealth's attorneys of the night rider district, did not prosecute the trust, then they were lacking in ability, as evidenced by the closing argument of the Times: "The total collapse of his armed repression, with not one law violator brought to punishment."

Such methods are beneath The Times, and we are surprised. The Times knows that the only way the trust can be fought is through the courts, and that the law officers—the commonwealth's and county attorneys and the courts, not the governor—are responsible for the prosecutions of night riders. The Times knows that the governor's effort at "armed repression" did not fail; because it did effectually stop depredations, and it knows that the failure to bring a violator to punishment is a reflection on the county and commonwealth's attorneys and courts of the Black Patch, and not on the governor.

The Times stood nobly by the governor during the fight, when rural papers were openly hostile, or afraid to speak their sentiments, and we are shocked to see it leagued in a common cause to discredit the military department of the state, after it had more than once expressed the pride of the state in the character of the troops, their discipline, and the decorum they manifested during their months of active service in a section where the ingenuity of the population was exerted to provoke them to excesses.

We cannot but believe that, had there been no trouble in the First regiment, the charge of violating the constitution in the Black Patch, never would have been made.

A lot of people, who are mad about the presence of lobbyists at the state capitol, are not careful about the kind of men they elect to the state legislature. The best way to get rid of the flies and lobbyists, is to starve them. If we don't permit the kind of filth and legislators that breed flies and lobbyists, they won't have flies and lobbyists. It is slow business trying to kill them off one at a time, while they are buzzing around the center of attraction. They breed faster than they can be killed.

STATE PRESS.

As G. W. Landrum Sees It.
Senator W. V. Eaton is authority for the statement that "We got Senator — to join us by giving him a job as deputy warden at Eddyville." That is the whole explanation in a nutshell as to the great acrobatic performances of the senator from the First senatorial district.—Smithland Banner.

The Senators.

There are a number of state senators at Frankfort that seem to care as little for the constitution as they do for pre-election promises.—Cadiz Record.

RAILROAD BRIDGE

PROJECT PROVING ACCURACY OF SUN'S NEWS.

If Bill In Senate Is Concerned With N. C. & St. L. Plans.

How accurately The Evening Sun has reported the railroad situation about Paducah, is proven by an apparently well authenticated story from Washington, that the representatives of the Louisville & Nashville are seeking authority to construct a bridge across the Ohio river. That bridge was eventually to be built, and the Louisville & Nashville, and not the Burlington was to build it, were forecast in these columns last fall.

August 31, 1909, The Evening Sun said: "The Burlington system is not coming to Paducah, but has already made an agreement with the N. C. & St. L., for a southern outlet, and the L. & N., which is a big stockholder of the N. C. & St. L., has a crew of engineers and surveyors in Paducah now surveying for city terminals, and running a survey to Metropolis to take care of the Burlington. Milton H. Smith, president of the L. & N., sent for the Paducah Northern maps, and copies of the ordinances some time ago."

August 26, 1909, The Evening Sun said: "It is handed out as a sure tip that the N. C. & St. L. is going to erect a new and handsome station at a not very far distant date. The site is not many stones' throw from the present station at Fifth and Norton streets."

Application was made to the war department for permission to build the bridge last summer, and if the bill, introduced by Senator Bradley, is for the same enterprise, it corroborates The Evening Sun's information of seven months ago.

HOW EATON VOTED

ASSISTED IN KILLING LOCAL OPTION BILL.

How Senators Lined Up in Final Vote to Postpone Action.

Frankfort, Ky., Feb. 25.—A trifle over seven weeks was the span of life enjoyed by the Watkins county unit bill. Its skin of destiny ran out to the last raveling in the Kentucky senate, when it died a quick and painless death, the process being known as "indefinite postponement," only one of the many ingenious and tortuous underground mazes into which the "third house" is able to conduct its victims, never more to return to earth.

The vote on the measure was 16 to 12. There was no misunderstanding as to the outcome of that vote. There was no flinching on either side. The anti-options had the votes, and the men who voted with them knew that they were killing the bill just as surely as if it had been killed in open session.

How They Voted.
Their constituents also will know exactly how they voted. The vote was as follows:

To Kill the Bill—Dewar, Catlett, Chipman, Combs, Dowling, Eaton, Hogg, Hubble, Linn, Mathews, Newcomb, Ryan, E. M. Taylor, G. A. Taylor, Wright, Wyatt, Total, 16.

To Save the Bill—B. M. Arnett, Beard, R. D. Brown, Burman, Donaldson, Graham, Jarvis, H. H. Smith, J. T. Smith, Thomas, Vice, Watkins, Total, 12.

Paired—L. W. Arnett (against) with N. C. Cureton (for); E. Hertram (for) with Dr. D. F. Tichenor (against); B. C. Griggsby (for) with C. W. Nagel (against).

Absent Without Pairing—Gus Brown, A. J. Oliver, J. T. Prichard, R. L. Salmon.

The first three, whenever present, have voted with the options, as has Senator Salmon on several occasions, but not always.

Having disposed of the Vice and Watkins bills, there remains only one bill to be put out of the way by the liquor interests; the Wagner measure, now safely ensconced in a favorable position on the calendar of the house.

Only One Left.
After it passes, the house this bill will go to the senate, where the dry men will rally around the option banner in a last effort to gain a victory. It probably will be as heroic and as fruitless as the charge of the old guard at Waterloo.

The Joe Williams should reach here today or tomorrow from the Mississippi en route to Pittsburgh.

NOW, BABY DOLL

STOP MAKING GOO-GOO EYES. IT'S NAUGHTY.

Oh, You Kid! You've Gotta Quit Whisking, Too.

"He that winketh with his eye causeth sorrow."—Proverbs 10th chapter.

In the midst of an informal gathering last evening at the First Baptist church the pastor, Rev. M. E. Dodd, lectured to the young people on the subject, "The Evil of Flirting." The foregoing text was taken and the Reverend Dodd strongly denounced all forms of flirtation, the "goo-goo eyes" being especially attacked.

He told how "those beautiful eyes; those bewitching eyes" were among the greatest evils and the prominent part they figured in the flirtation problem. The flirt is generally defined as a part girl or a coquette.

The social last night was for the new members, who had joined the church during the recent revival and was an informal affair. Mrs. Henry Daley favored the church people with a recitation. Over 150 people were in attendance and all of the new members became acquainted with the older ones. The social was held in the Sunday school room.

In fact Captain Owen has been homesome since the day the Little Owen was saved from sinking and was beached in a cornfield below the Illinois Central incline. Captain Owen piloted the Little Owen for five years and was at the wheel when the disastrous accident happened to her. Before that he piloted the ferryboat before the Owen for eight years. Day after day Captain Owen was at the wheel and it is a hard matter for him to keep away from the ferry landing.

Big Amateur Show.

A superb amateur performance under the direction of Mrs. William Deal, house pianist for the Kentucky Theater, is being arranged for presentation next Friday evening, followed by Saturday matinee for the benefit of children. The program has not been completed but is being worked into form. The performance will open with a grand costume assembly of 16 children, representing all nations. A difficult march with figures will come next and a feature of this act will be a song by Little Miss Verus Hollenberg, a favorite amateur. Another act will be six boys in black face, doing a cake walk for a big prize cake in the center of the stage. Master Sanders Kelthoy, dressed as a black mammy, will sing.

Four cash prizes will be awarded and judges will be selected from the audience. Prizes will be based on the merits of the performers and their costumes. Motion pictures and illustrated songs will also be featured. The evening performance will begin at 8 o'clock and the afternoon matinee at 2:15 o'clock.

Prof. Deal Returns.
Professor William Deal returned home this morning from several points in Kentucky and also a visit in St. Louis. Professor Deal assisted in starting his production "Calk 23," on a circuit through the middle of Kentucky, including Madisonville, Morganfield, Burlington and other points. The play opened last Saturday night at Shawneetown and is playing one night stands at each town. Practically the same cast is presenting it that did in this city. The play has met with much success and will finish the circuit next week. Professor Deal visited St. Louis in the interest of his musical play, "Miss Dorothy," which is now out on royalty in a circuit in Illinois. It opened at Chicago.

Popular La Center Couple Marry.
A pretty wedding was that of Miss Hattie May Miller and Mr. Simon Kenton Holland, which took place yesterday afternoon at 5:30 o'clock at the home of the bride's parents, Mr. and Mrs. L. W. Miller, near La Center. The Rev. H. H. Terry, of the Methodist church, was the officiating minister. The wedding march was played by Miss Anna Hollings.
The house was attractively decorated with flowers and plants. Miss Ruby Miller was the maid of honor and Mr. James Grover Holland, of St. Louis, was the best man. The bride was becomingly gowned in white made princess and elaborately beaded. She carried white carnations. The maid of honor wore pink and carried pink carnations.
The couple left at 7 o'clock for Paducah. From here they will go to visit the bridegroom's parents, Mr. and Mrs. Marion Holland, in Marshall county, and will visit also in Nashville, Tenn., and Scottsville, Ky. They will be at home in La Center after two weeks.

Reception-Dance for Visitors.
The students of the Paducah High school will give a reception-dance in honor of the visiting schools this evening at the Three Links building, following the oratorical contest at the Kentucky theater. The Boys and Girls Athletic club have charge of the affair. The guest list includes the victors, the students and the faculty of the Paducah High school.

Important Meeting.
The Junior Warden Missionary society of the Broadway Methodist church will meet Saturday afternoon at 2 o'clock in the downstairs parlor of the church. As it is the last meeting of the missionary year it is imperative that all the members should be present with their pledges. The annual election of officers will be held.

Children's Hour at the Library.
Saturday morning at 10:30 o'clock will be "story hour" for the children at the Carnegie library. "Helen's Babies" will be attractively featured with the story of "Hodge's Version of the Flood."

The weekly "story hours" are being largely attended. Miss Hopkins and Miss Johnston have quite captivated the children.

Magazine Club With Miss Scott.
Miss Julia Scott was the hostess of the Magazine club yesterday afternoon at her home on Madison street. It was a delightful meeting of the club.

The magazines reported were widely varied in interest and were cleverly given. The North American Review was splendidly handled by Miss Helen Lowry and Miss Dow. Mrs. E. G. Boone gave an attractive resume of the Outlook. The Century was delightfully featured by Mrs. Samuel T. Hubbard.

A prettily appointed two-course luncheon was served at the conclusion of the magazine reports.

Formerly Lived Here.
Mrs. C. M. Thompson, wife of the pastor of the Baptist church, is in Newark, Ohio, attending the bedside of her mother, who is critically ill from a stroke of paralysis.—Hopkinsville News Era.

The Hospital League.
The hospital league meets with Mrs. P. H. Stewart this afternoon, at her home on North Ninth street.

Pictures and Music.
An interesting "Stereopticon Travelogue Through China" was enjoyed last night at the Broadway Methodist church under the auspices of the Junior Warden Missionary society. The 100 views of the "Dragon Empire" covered a wide range of subject and many of them were especially beautiful. They were all hand-colored. Miss Elizabeth Graham, of the High school faculty "personally conducted" the audience in attractive way. Preceding the pictures there was a pleasing musical program. Miss Nowell played with brilliancy and charm a beautiful Polka-Caprice by Raff. Mrs. Roy Gresham sang very delightfully "Little Boy Blue" and "Love's Philosophy."

Colleges Favor Measure.
Washington, Feb. 25.—President Thompson, of Ohio State University, told the house committee on agriculture today that no action of congress would be more creditable than the passage of a bill making an appropriation for the extension of work among the agricultural colleges. President Snyder of the Michigan agricultural college, and President Stone, of Purdue, also favored the bill.

SHERIFF DECLARES TO MOH PRISONER IS GONE.

Dallas, Tex., Feb. 25.—A statement was issued by the sheriff today declaring positively that Allen Brooks, negro wanted by the moh for assaulting little Ethel Huvins, is not in jail here nor even the town; but a heavy guard is still maintained as it is feared an attempt will be made to take out other prisoners. Race feeling runs high and negroes are keeping off the streets as much as possible. Negro ministers have appealed to the court authorities to bring Brooks to trial as soon as possible to prevent further trouble. Unless the negro waives his rights, he can't be brought to trial within five days and he can't be executed within 30 days after the trial is closed. It is stated on good authority here today that he is in Florida jail now.

CALOMEL IS MERCURY.
No one should ever take Calomel except under a doctor's direction. Calomel contains mercury, and mercury is poison. Physicians for years have been looking for a substitute, for no doctor likes to give dangerous medicine. Dr. Edwards, after fifteen years of study, has solved the problem for all physicians, and compounds Olive Tablets, containing Olive Oil and other vegetable compounds, which act gently and firmly on the liver and bowels. It is not necessary to take Calomel any more since Dr. Edwards' Olive Tablets are taking its place, so your liver and bowels can be restored to their natural functions without any danger. The Olive Oil in the tablets is healing to the irritated organs. Try a package and see what wonders they do for the Liver and Bowels. At all drug stores, in neat 10c and 25c packages. The Olive Tablet Co., Portsmouth, O.

RAILROADS REFUSE TO MEET DEMANDS OF THEIR EMPLOYEES.
Cleveland, Feb. 25.—The replies of the southern railroads to wage demands of the Brotherhood of Railway Trainmen and Order of Railway Conductors were opened today. The refusal of the roads to meet the men's terms was unanimous. It is certain that any action taken by the men to press their demands will be simultaneous in the east and south. The result of the strike vote of the H. & O. men will be made known to President Lee of the trainmen, and Grand Master Garretson, of the conductors, next week. If the decision is to call a strike, as it is expected, the executive councils of the two orders are expected to submit to the men on all lines the question of whether a general strike shall be called.

Notes bear interest only when so stated.

BETTIE OWEN

LOSS ADJUSTED BY CAPT. J. L. SHALCROSS.

Helena Shipyard's Man Is Here Figuring On Successor to the Bettie.

Captain J. L. Shalcross, of Louisville, a marine insurance underwriter, returned home today after adjusting the loss of the burned ferryboat Bettie Owen. The boat was insured for \$10,000 in four companies and the owners, the Paducah & Illinois Ferry company, were paid the face of the policy and the wreck was turned over to them. Practically \$1,000 will be realized from the wreckage.

Capt. Murnan, of the Helena Shipyard & Docking company, arrived here today to present figures for a new ferryboat. Several bids have been received by the ferry company, which is reserving them until the arrival of the representative of the Howard Shipyard at Jeffersonville, Ind. The contract will not be let until after all bids are considered. The Howard ship building plant will send a man here by tomorrow it is thought.

The shacks of the prospectors were demolished.

IN BALLINGER'S FAVOR.

United States Marshal Coming From Alaska to Testify.

Seattle, Feb. 25.—United States Marshal H. K. Love, of Alaska, arrived in Seattle today on the way to Washington to testify before the Ballinger-Pinchot committee. Love said: "All my testimony respecting the Cunningham group of claims will be in favor of the secretary of the interior. If any one is responsible for the admission of the entries it is myself, for I recommended the entries to Ballinger. His acts relative to the claims were directly on my recommendations as special agent of the land office."

Lord Cochran's Fine.

Perhaps the greatest curiosity of the Bank of England possesses is a note of £1,000, the sum Lord Cochran paid as a fine for his connection with a fraud on the public, with which he really had nothing to do. He indorsed the note thus: "My health having suffered by long and close confinement and my oppressors having resolved to deprive me of property or life, I submit to robbery to protect myself from murder, in the hope that I shall live to bring the delinquents to justice.—Cochrane." He wrote from the grated chamber of King's Bench prison.—Exchange.

YOUR BACKACHE WILL YIELD

To Lydia E. Pinkham's
Vegetable Compound

Bloomdale, Ohio.—"I suffered from terrible headaches, pains in my back and right side, and was tired all the time and nervous. I could not sleep, and every month I could hardly stand the pain. Lydia E. Pinkham's Vegetable Compound restored me to health again and made me feel like a new woman. I hope this letter will induce other women to avail themselves of this valuable medicine."—Mrs. E. M. FREDERICK, Bloomdale, Ohio.

Backache is a symptom of female weakness or derangement. If you have backache don't neglect it. To get permanent relief you must reach the root of the trouble. Nothing we know of will do this so safely and surely as Lydia E. Pinkham's Vegetable Compound. Cure the cause of these distressing aches and pains and you will become well and strong.

The great volume of unsolicited testimony constantly pouring in proves conclusively that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has restored health to thousands of women.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Mrs. Pinkham at Lynn, Mass., for advice. Your letter will be absolutely confidential, and the advice free.

MODERN HAIR DRESSING.
has played havoc with the tresses of the fair sex, and druggists everywhere comment on the fact that they are selling large quantities of sage for making the old-fashioned "sage tea," such as was used by our grandmothers for promoting the growth of their hair and restoring its natural color. The demand for this well-known herb for this purpose has been so great that one manufacturer has taken advantage of the fact, and has placed on the market an ideal "sage tea," containing sulphur, a valuable remedy for dandruff and scalp rashes and irritations. This preparation, which is called Wyeth's Sage and Sulphur, is sold by all leading druggists for 50 cents and \$1.00 a bottle, or will be sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price. For sale and recommended by W. J. Gilbert.

Perkins Holds His Own.
Washington, Feb. 24.—Despite the prediction of his physicians Tuesday that the end was only a question of hours, Representative Perkins, of New York, is still successfully battling against death. His condition this morning was reported about the same as yesterday afternoon, when Vice President and Mrs. Sherman called at the hospital.

TOO MUCH PAID TO RAILROADS

ONE OF THE CAUSES FOR BIG
POSTAL DEFICIT.

Congressman Cox Says If Railway
Mail Pay Is Reduced It Will Have
Good Effect on Revenues.

HE ATTACKS WHOLE SYSTEM

Washington, Feb. 25.—Representative William E. Cox, a member of the committee on postoffices and post roads, made a speech in the house in which he charged that the railroads are excessively paid for carrying the mails and that is one of the principal causes of the big postal deficit. He created somewhat of a sensation by pointing out the enormous revenues the railroads get by leasing postal railway cars to the government. In part he said:

"The railroads haul express from New York to San Francisco from two to three times cheaper than they haul the mail for the government, yet both express and the mail is hauled by their own agents and the railroad companies have substantially the same cost in hauling both mail and express."

"The railroads are paid by the pound for hauling the mails, and in addition to this they receive large sums of money as rent for the use of their postoffice cars. There was paid to them this year \$4,800,000 as rent for the use of their cars, and this sum of money was paid for the use of 1,342 cars, giving to the railroads \$3,575 for each car."

"The interest upon this investment is equal to about 6 per cent interest upon \$59,000, and I dare say that an average mile of railroad in its construction does not cost this much. No business man on earth can stand this drain, not even the United States Steel Trust or John D. Rockefeller, and I fear that Uncle Sam cannot much longer endure this financial drain."

"Here is the 'nigger in the woodpile': he is a large, husky fellow, responsible for the deficit of the postoffice, and if the entire system is overhauled and the railway mail pay reduced, we will get the same service and soon wipe out the deficit."

Struck a Rich Mine.
S. W. Bonds of Coal City, Ala., says he struck a perfect mine of health in Dr. King's New Life Pills, for they cured him of liver and kidney trouble after 12 years of suffering. They are the best pills on earth for Constipation, Malaria, Catarrhs, Dyspepsia, Debility. 25c at all druggists.

"How did you attain your eminent position?" asked the scientist.
"Natural selection," said Senator Sorghum.
"You mean that you are specially fitted by your ancestry?"
"No. Nothing like that. I just naturally selected the offices I wanted and went after them."—Washington Star.

GLASSES

OF NOTED STATESMAN SLIP
DOWN FAIR LADY'S BACK.

And Husband Calmly Yanks Them
Out—Amusing Incident at
Army and Navy Reception.

New York, Feb. 25.—A Washington dispatch says:

"Over the telegraphs this afternoon Washington society laughed heartily about two white house incidents at the army and navy reception last Tuesday which are going the rounds of cheerful gossip. The latest season is a dull one, and today was one of the dullest days—no dinner parties, no dances, no receptions—so the two really noteworthy anecdotes filled a gap in the day's amusement."

"The dramatic personae of the first story includes a celebrated statesman rather on in years, who wears glasses. While trying to adjust them to his aquiline nose on Tuesday night he slipped from his fingers—not to the floor but down the low-cut gown of a young navy matron who was standing in front of him."

"The statesman was in despair, and finally appealed to the lady's husband to recover his property. With the usual thoughtlessness of married men, Mr. Husband reached down his wife's back and fished out the glasses before all the guests."

"The other laughable incident came when a careless dancer caught her hand in the imposing collar of a stately white-haired Washington matron, displacing several of the puffs and curls. Much chagrined, she fixed it back again, but alas! at least \$30 worth of the puffs had fallen to the ground."

"An absent-minded admiral of national renown picked up the snow-white puffs, mistaking them for his pocket handkerchief, and put them in his pocket and stalked majestically off to his carriage."

The Best Hour of Life.
Is when you do some great deed or discover some wonderful fact. This hour came to J. R. Pitt, of Rocky Mt., N. C., when he was suffering intensely, as he says, "from the worst cold I ever had. I then proved to my great satisfaction, what a wonderful Cold and Cough cure Dr. King's New Discovery is. For, after taking one bottle, I was entirely cured. You can't say anything too good of a medicine like that." Its surest and best remedy for diseased lungs, hemorrhages, LaGrippe, Asthma, Hay Fever—any Throat or Lung Trouble, 50c, \$1.00. Trial bottle free. Guaranteed by all druggists.

LETTERS! LETTERS!

CONGRESSMEN FLOODED WITH
ALL KINDS OF THEM.

Also Postal Bank and Commander
Peary Are Chief Subjects.

Washington, Feb. 24 (United Press).—These are halcyon days for the ready letter writer.

If the flood of communications to congressmen protesting against any increase in the postal rates on second class matter should continue the troublesome deficit of the postoffice department might be wiped out without any special legislation. Every member of the lower house is receiving from 250 to 300 letters a day from constituents on this and other subjects now pending before congress.

Next in popularity with the correspondents after the postal question comes the tax on oleomargarine. Polks in the dairy district are protesting against repeating the tax, and letters just as vehement from the south ask that the tax be repealed. "It is just as good as butter," wrote a man from Texas to one congressman, "and I protest, sir, against this class legislation." "Oleomargarine is a fraud," read the next letter the same congressman opened, "and is a rank imitation of butter. Every dairymen in the United States asks that the tax be retained."

Then comes the postal savings bank proposition. Many letters objecting to the bill are identical in wording and even written on the same kind of paper, and the suspicion is strong that they emanate from some particularly interested financial quarter.

"Repeal the corporation tax," demand other letters received by the score from all parts of the union. Ship subsidy, the making of Commander Peary a rear admiral and the conservation of natural resources come in for their share of obstretrous attention. Then there is women's suffrage. The suffragettes have a well organized lobby here, and they have started a flood of letters toward Washington on the endless chain plan. Mixed in with these come letters asking for seeds. "Impoverished Judges Grosvenor and Pollock" is the text for others. Many of the letters have come in response to appeals to "write to your congressmen" at once printed in the various "nucleus-making" magazines.

The visitor looking into a congressman's office, finds the tables, desks, chairs and floor littered with letters, and the congressman's clerk and several stenographers busy pointing out answers. Several of the most harassed have installed dupli-

cating machines guaranteed by their makers to simulate typewriting perfectly and form letters are printed thereon adapted to various subjects.

Doctor Is Arrested.
Monroe City, Mo., Feb. 24.—Dr. James T. Hull, of Monroe City, was arrested this morning on warrant issued in the request of Prosecuting Attorney Rieger, of Adair county, following a post mortem when strychnine is said to have been found in the stomach of the late Prof. J. T. Vaughan, of Kirksville. Dr. Hull was taken to the Madison hotel and there turned over to a deputy from Kirksville. Then they left for Kirksville, where he will either be placed in jail or released on bond.

Teachers' Pensions.
The amount of pension varies New York giving the highest maximum pension, and Boston and St. Louis the lowest. In some there is a uniform rate of pension for all teachers, regardless of the amount of the salary; in others the annuity is in proportion to the salary received. The majorities of the cities give a life pension of one-half the annual salary. In St. Louis and Boston the pension is \$180 a year; in Buffalo a third of the salary, which, for the grade teacher, amounts to \$250 or \$300. Cincinnati, Cleveland and Columbus give a maximum pension of \$300. Indianapolis gives \$200 for twenty-five years of service, and \$10 additional for every year taught after this. Rochester, Syracuse and Utica grant one-half of the salary, provided this is not more than \$300. Nebraska gives \$500, and requires thirty-five years of service; Detroit,

one-half the annual salary; New Jersey, not less than \$250 or more than \$650; California, from \$50 to \$50 a month; Minneapolis, a uniform rate of \$300 a year, and St. Paul, a uniform rate of \$100—Century Magazine.

A Good Shingle Roof For Your House

Will last for years. But the shingles must be bone-dry, bright stock, if they are to give you long, useful service. If they're kept out in the open, as some shingles you buy may be, they go on the roof green. They soon cup up and your roof leaks and you have all your trouble and expense to go through with again.

You can buy better shingles cheaper, from us, because of our facilities for handling them in large quantities. Telephone now and let us estimate the cost of covering your roof.

Get Rid of That Sourness, Gas and Indigestion.

When your stomach is out of order or run down, your food doesn't digest. It ferments in your stomach and forms gas which causes sourness, heartburn, foul breath, pain at pit of stomach and many other miserable symptoms.

MI-O-NA stomach tablets will give joyful relief in five minutes; if taken regularly for two weeks they will turn your flabby, sour, tired out stomach into a sweet, energetic, perfect working one.

You can't be very strong and vigorous if your food only half digests. Your appetite will go and nausea, dizziness, biliousness, nervousness, sick headache and constipation will follow.

Fifty cents a large box. Sold by druggists everywhere and by Gil-ber's drug store.

For constipation there is no remedy so satisfying as Itoth's Pills—25 cents.

As in Laundries.

A California woman in training a new Chinese servant to wait on the door had her daughter ring the bell and unseat her card. Next afternoon a friend called and banded her card to the Celestial, who pulled out of his sleeve the card the daughter of the house had presented the afternoon before and carefully compared the two. "Ticket no match," he exclaimed, handing back the visitor's card. "No can come in."—Success.

HELL EQUIPPED WAS CAIRO MOB

ROPE, SLEDGE HAMMER AND COLD CHISEL FOUND.

Sheriff Tipped Off by Some One Where Things Were Hidden in Closet.

KNEW NOTHING ABOUT IT.

Calro, Ill., Feb. 25.—There were some sensational developments in connection with the mob of last week, which demonstrated that the affair was not a "blind" but that the leaders meant business. The evening before Sheriff Nollis had received a "tip" that the paraphernalia with which the mob had supplied itself was hidden in Rudy Laurent's saloon at the corner of Nineteenth street and Washington avenue, only a block from the court house. He notified Adjt.-Gen. Dickson and States' Attorney Wilson was notified. After consultation Chief Egan was called in and Mr. Laurent was requested to come to the court house. The officers informed Mr. Laurent that the information stated had been given and he was asked about it. He said he knew nothing at all about it. If the things were in his place they were placed there without his knowledge and he had not seen it. To the proposition that his place be searched he readily consented and the officers went there and in a closet in the rear part of the saloon found a rope, a sledge hammer, and a cold chisel, the latter a new one and of the kind usually used for heavy work. The rope was a three quarter inch rope and there was enough for two. The articles were turned over to the sheriff for safe keeping.

Mr. Laurent's statement is that when the crowd came back from the court house they picked his saloon up full that he could see little or nothing that was done by anyone near him; he did not know that any one had any of the things referred to, and could not have seen what was done with them. Mr. Laurent's readiness to have his place searched, and the fact that the things had remained where they were found for a week, was accepted as proof of his innocence. The closest where the things were found was one where things are put out of the way and the things could easily have been placed there without Mr. Laurent's knowledge and remained there indefinitely.

Mrs. Wayback—And are the city people as smart as they say, Vera?
Mr. Wayback (lastly returned from the city)—Well, I should say not. Talk about ignorance. They've even got to have signs in their subway telling them which way is up and which way is down.—Brooklyn Life.

SHE QUIT.

But It Was a Hard Pull.

It is hard to believe that coffee will put a person in such a condition as it did an Ohio woman. She tells her own story:
"I did not believe coffee caused my trouble, and frequently said I liked it so well I would not, and could not quit drinking it, but I was a miserable sufferer from heart trouble and nervous prostration for four years.

"I was scarcely able to be around, had no energy and did not enio for anything. Was enaunted and had a constant pain around my heart until I thought I could not endure it. For months I never went to bed expecting to get up in the morning. I felt as though I was liable to die any time.

"Frequently I had nervous chills and the least excitement would drive sleep away, and any little noise would upset me terribly. I was gradually getting worse until finally one time it came over me and I asked myself what's the use of being sick all the time and buying medicine so that I could indulge myself in coffee?

"So I thought I would see if I could quit drinking coffee and get some Postum to help me quit. I made it strictly according to directions and I want to tell you, that change was the greatest step in my life. I was easy to quit coffee because I had the Postum which I now like better than the old coffee.

"One by one the old troubles left, until now I am in splendid health, nerves steady, heart all right and the pain all gone. Never have any more nervous chills, don't take any medicine, can do all my housework and have done a great deal beside."

Novel Experiment by Which It May Be Made to Disappear.

A peculiar feature about poslam, the new skin discovery is that no one is asked to buy it without first sending to the Emergency Laboratories, No. 22 West Twenty-fifth Street, New York City, for an experimental sample and applying same to an affected part of the skin, about the size of a silver dollar. It will clear the spot so treated in twenty-four hours—a remarkable visual demonstration of its powers.

While poslam has been mentioned principally in connection with the cure of eczema, the most stubborn of skin diseases, it must be remembered that when used for itch, hives, pimples, blotches, acne, itching feet, scaly scalp, chafing of infants and similar minor skin troubles its action is all the more pronounced, results being seen after an overnight application. As only a small quantity of poslam is necessary to cure such cases, a special fifty-cent package, usually sufficient, has been placed on sale at Gilbert's and R. W. Walker & Co.'s, and other leading drug stores in Paducah and throughout the country. No. 4

Text of Governor Willson's Special Message to State Legislature.

Frankfort, Ky., Feb. 25.—Gov. Willson sent another message to the general assembly. The governor first says he is in duty bound to call the attention of the general assembly to the fact that there is no provision in our constitution for the appointment of presidential electors. This oversight, he recommends, should be remedied.

The governor also recommends that some action be taken to exempt the Lincoln Farm association from taxes, and recommends an annual appropriation of \$1,500 to maintain the farm memorial and statue of Lincoln at Hodgenville.

He approves the making of the road from Louisville to Hodgenville "Lincoln Way."

Progress in Schools.

He then takes up the need for progress in our school laws, and says the laws need radical changes. We have 25,000 school trustees in Kentucky, 5,000 of whom cannot read or write, and 20,000 who take no interest in their duties. The governor goes at length into the educational system and situation. He says:

"When he have \$3,000,000 a year for schools and only 311,000 children in school and 416,000 out of school, and 300,000 who cannot go to a school because they have no school, something must be done about it right away. With all that money there should be school houses and teachers for every child in Kentucky. We raise the money, but we do not take proper care to see that the children get the worth of it."

Money Wasted.

The governor says a million and a half dollars is wasted annually, and continues:

"Thousands of unfaithful agents and trustees have wasted or appropriated the common-school moneys and are now clamoring against the new school law and against further good changes, and are scheming to get the funds in their control again."

"For the love of our Kentucky children, for the hope, the honor, the welfare of Kentucky and for the future of the Commonwealth, let us set our faces against every effort, under whatever excuse, to lose or waste the advantage which has been gained, and let us use all our sense, courage, honor and faith to hold fast to the new plan, and only change it to carry it further forward, to greater blessings and gain for humanity and knowledge."

The governor tells of the request of the Normal school for negroes. It wants \$3,000 more annually and \$3,000 improvements. He passes this matter up to the legislators for their attention.

Good Roads.

The governor takes up the question of good roads and the uniform accounting law, and asks attention to them.

He says there is great need of a contingent fund of \$5,000 to be used under the governor's direction. He suggests an appropriation of \$200 for a figurehead for the battleship Kentucky.

He recommends a bi-partisan board for the prisons and penal institutions, and indorse the indeterminate sentence law. A new dormi-

FIRST TRIAL IN NEW PARLIAMENT

CHAMBERLAIN'S FISCAL AMENDMENT IS REJECTED.

Government Regards Result as Satisfactory, as There Was No Cross Voting.

MANY ABSTAIN FROM VOTING.

London, Feb. 25.—The first trial of strength in the new parliament occurred at a crowded session of the house of commons, when Austen Chamberlain's fiscal amendment was rejected, 255 to 254. Speeches were made by Arthur J. Balfour, leader of the opposition, Chancellor Lloyd-George, Walter Runciman, president of the board of education, R. Bonar-law, and others, nine of which gave a new aspect to the fiscal controversy.

Although victorious only by a majority of 31, the government regards the result as satisfactory, inasmuch as there was no cross voting and no evidence of any intention on the part of discontented groups to overthrow the ministry. All Nationalists and O'Brienites, as well as Redmondites, abstain from voting. The Laborites voted with the government, and three Liberals abstained.

The division was taken amid a scene of great excitement and the poll was received with a tremendous opposition cheering. The premier having given notice that he will move on Monday that the government business take precedence until March 24, the house adjourned. The government's existence now depends on the production of a plan satisfactory to the Nationalists and Radicals for dealing in a drastic manner with the house of lords' power of veto.

message to the state militia, and asks for more money for the soldier boys, and says that politics has been eliminated from the militia. He suggests an increase in the appropriation for the militia from \$20,000 to \$80,000.

Final Paragraph.
The governor shows the cost of taking care of the new capitol and grounds, and asks for an appropriation to properly keep both in first-class condition. It will take not less than \$25,000 a year.

He recommends a number of changes in regard to the working of the land office. He then takes up the constitutional provision that no rate officer shall receive more than \$5,000 a year, and says there are instances where this is not enforced, and suggests a law making a penalty for the violation of the law.

The governor asks for some kind of legislation concerning the pollution of streams.

He devotes a large part of his message to the state militia, and asks for more money for the soldier boys, and says that politics has been eliminated from the militia. He suggests an increase in the appropriation for the militia from \$20,000 to \$80,000.

NINE HOURS

CAR DEPARTMENT OF ILLINOIS CENTRAL SHOPS.

Will Resume Long Day, Commencing March 1—Personals.

Beginning March 1 the car department of the Illinois Central shops will work nine hours a day, according to the announcement made this morning by Master Mechanic J. H. Nash. The increase in hours will affect 367 men and will add considerably to the monthly pay roll. Several weeks ago the locomotive department began the nine-hour day, but the car department will continue to work eight hours a day until next Tuesday. The longer days are responsible for the longer hours as it is the custom of the railroad to work short hours during the winter days because of the cold weather and the short days. The announcement of the longer day will be pleasant news to the carmen.

Personals.

General Foreman James Hofflich is off duty owing to illness. John Schroeder is filling his place.
Mr. R. W. Bell, superintendent of machinery, left last night for Cairo on train No. 801 after spending the

day inspecting the local shops. Mr. A. H. Egan, superintendent, and L. E. McCabe, assistant superintendent, left at 11:25 o'clock on train No. 102.

The Plain City lodge of machinists will hold the regular meeting tonight at the Central Labor hall. A large attendance of the machinists is requested, as there will be five candidates to initiate into the mysteries of the "nut-splitters."

Sterling Price, of the car department, is ill of the grip at his home in O'Bryan's addition.

Fred West, a hostler, has returned to work after a short illness with the grip.

Dr. G. C. McKinney, of the Illinois Central hospital staff, is recuperating after an attack of the grip.

Mr. George Leonard, a machinist, who has been critically ill for a week, was unimproved today. Little hope is entertained for his recovery.

J. M. Callahan, general foreman at Central City, was in the city today. Mr. Callahan is on the sick list, but was able to be up.

Wurth Holcomb, a boilermaker helper, is ill of the grip.
Henry Shelton, of the machine department, is off duty owing to an attack of the grip.

Richard Herman, day caller, has returned to work after a short illness.

The Rev. W. J. Naylor has recovered from his late attack of the grip and nervous disorder and will preach next Sunday morning at Lebanon. Subject, "The False and the True."

DETAILS OF KILLING

OF YOUNG SOLDIER WHO WAS WELL KNOWN HERE.

Captain Gordon Givens, Who Commanded Detachment During Night Rider Troubles.

The Middleboro News-Record gives the following details of the killing of Capt. Gordon Givens, who as a deputy sheriff, was at Edgewood coal mines in Hill county and was summoned to arrest Mose Gatliff, who had started a rough house at the home of his sister-in-law, Mrs. Bowers. As soon as Givens entered the house Gatliff opened fire on him, the first shot hitting him in the side. Givens returned the fire, shooting Gatliff twice through the lungs. Givens died three days later and at last accounts Gatliff was still alive.

Deputy Sheriff Givens was regarded as one of the bravest officers in this section and it was due to this that he was placed in the mining camp section to deal with the lawless element that usually inhabits these localities.

Last September he killed Dave Haynes, a miner, at Edgewood mines whom he attempted to arrest for "shooting up" the camp. Givens was among the first to enroll his name on the reorganization of the local militia five years ago under Captain George W. Albrecht. Later on when the company was called to western Kentucky in the suppression of the night riders, Givens played a conspicuous part. It was while his company was in this part of Kentucky that he married Miss Eula Vincent, of Calloway county. The deceased was near his 24th birthday at the time of his death. He was born near Ferndale on Feb. 26th, 1886. He leaves behind to mourn his death his wife and child, his father, Wm. Givens, and one sister, Mrs. D. L. Morrison of Atlanta, and four brothers, R. Lee, J. L., Ed and Carlo Givens.

—Mr. W. C. Rickman has presented the pupils of the McKinley school with a handsome framed picture containing all of the pictures of the presidents from Washington to Taft. The picture makes an attractive ornament for the school.
